

## Practice Set 7 Understanding Probability

- I. Darin collected the following information concerning customer age and making a sale. Please complete this chart.

Customer Age and Making A Sale			
Customer Age	Less than or equal to 20	Over 20	Totals
Making A Sale			
No		8	
Yes	24		36
Totals	40		

- II. Solve the following problems using the data from question 1. Be sure to use a formula and draw a Venn diagram.

A. The probability of making a sale.

B. The probability of a customer being over 20.
