

Unit 39 Practice Problems

Instructions: Solve the following problems using the procedures described on page 112.

- 1) Karen scored 26, 34, 41, 19, and 35 points in last week's 5-event swim meet. What was her average score per event?

- 2) John's savings are \$2,000 and he received a \$2,500 scholarship. How much must he borrow to pay college tuition of \$7,500?

- 3) The movies cost \$6 and bowling costs \$5.50. Going out one night per week, how much less expensive is bowling than the movies for a 52-week period?

Unit 39 answers are on page 240.

Unit 39 additional practice problems are on page 193.
